Find out why more churches are using Servant Keeper®

•Easy to use!

The number one reason people switch to Servant Keeper, and the number one reason they STAY happy users, is because it is so easy to use. Even though they deliver some of the most powerful and sophisticated tools in the industry, the Servant Keeper team of developers have always kept "ease of use" as their top priority. After all, what good is great technology if the user can't figure out how to use it?

•It speeds things up!

Servant Keeper will save you time. Tons of time! There are a few ways it will do this. The first way you will notice is that is keeps your data at your fingertips. Searches take mere seconds. Another huge way is that it automates the daily processes so that it becomes a zero redundancy program. You never find yourself typing the same thing over and over! Because of these things, many people report saving hours per week, even hours per day, after switching to Servant Keeper!

•Customizable!

Every church or ministry is different, and is run by different people who think differently. Because of this we need software that can adapt and be customized according to the needs of our ministries. That's why Servant Keeper is so popular! Every field in Servant Keeper can be customized to track what YOU need to track for YOUR ministry. You can create customized reports and letters in the SK Writer tool. You can set up your own events and groups and determine who on staff can see what parts of the program. Servant Keeper is a program that adapts to YOUR needs!

•Accessible!

Servant Keeper is all about keeping your information at your fingertips at all times. Searches and groups keep information just a click away. Also, Servant Keeper can be installed on any computer and the data is portable, able to be downloaded on a flash drive or disk, and you can take it anywhere you want. Not only that, with the new optional Servant Keeper Notify service, you can utilize the web based or smart-phone dashboards to communicate with your members and let them update their contact information for rapid notification!

Cloud Based Technology! - with optional cloud based technology, you can have even more accessibility to your data.

•Affordable!

From the start, one of the driving visions behind the creation of Servant Keeper was to provide cutting edge technology to even the smallest churches. In keeping with that vision Servant Keeper has always been incredibly affordable. It is still a mystery to many how such an amazing program can be offered as such affordable prices, but Servant PC Resources, Inc has been delivering the best service, the best support and what many consider the best software since 1994 at prices that any church can afford. Call us today to get started!

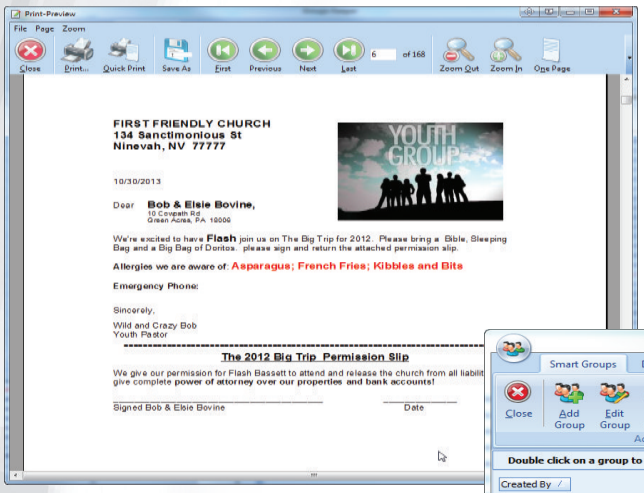
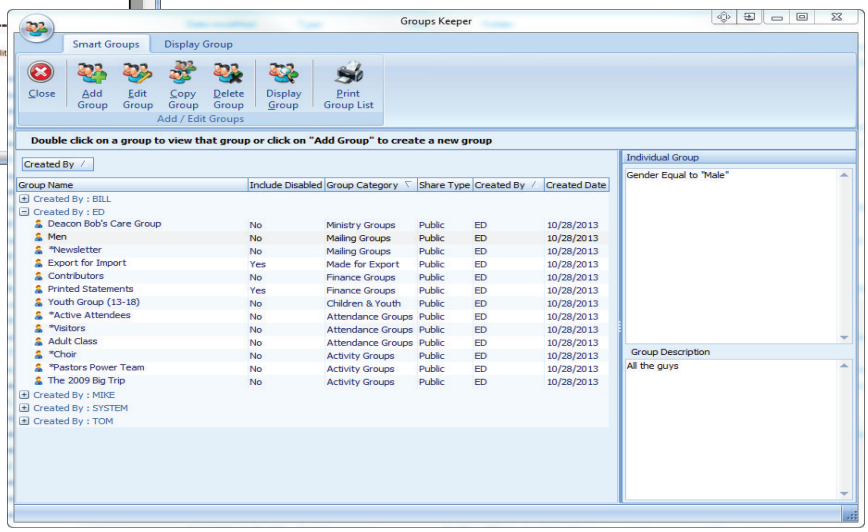
Servant Keeper's **Groups Keeper** and built in **SK Writer** keep you in control.





Servant Keeper's **Reports** keep you informed.

- Create member lists, attendance rosters, birthday or anniversary lists, etc. virtually anything you want.
- Get timely listings of important events in your member's lives so that you can more effectively show your care and concern.
- Locate interests, skills and resources available within your congregation to better plan and staff classes, activities and events.
- Print out things like visitation schedules, and activity reports, even email them to leaders, pastors, small group leaders, etc.
- Find out who is attending your services or who might be "falling through the cracks". Effortlessly follow up on attendance with mail-merged personalized followup letters that will let people know you care about them. (Helps you find out things such as if people are sick and need help from the church!)
